### NEW AGE METALS

New Age Metals (**NAM**) is a **Junior Exploration and Development Company** focused on two **Green Energy Divisions**. Both our PGM and Lithium divisions' minerals will aid in powering the energy needs of the automobile industry today and into the future. **NAM owns 100% of Canada's largest undeveloped primary Platinum Group Metals (PGM) deposit**, The River Valley Project, with 3.9Moz PdEq in Measured plus indicated including an additional 1.2Moz PdEq in Inferred. It is situated only 100 KMs from world class metallurgical facilities in Sudbury, Ontario, Canada, each of which could take NAM's concentrates. **NAM's PGM division is complemented by a large portfolio of Lithium Projects (three of which are drill ready) in the prospective Winnipeg River Pegmatite Field**, which is in the same greenstone belt as the world-class Tanco Pegmatite. NAM has recently joint-ventured 5 Lithium Projects with a well-funded 3<sup>rd</sup> party junior company, whereby a minimum of \$500,000 will be expended in 2018. **NAM is not only unique due to its combination of assets, but it also has a senior technical and financial management team with a proven background in developing Platinum Group Metal and Lithium Projects on an international scale.** The combination of these projects and the technical expertise of management make it a very unique junior mining company.
